

What sets TCSJOHNHUXLEY's GFL Media apart?

Gaming Floor Live Media is an ideal solution for casinos to seamlessly display real-time table game data and promotions.

Features & Benefits

Alter, schedule & configure display content from a central point, in real-time

Instantly modify table min/max's at the click of a button

Publish custom messages at specific tables around the venue (bar specials, restaurant offers, upcoming events etc.)

Use a variety of widgets, frames and layouts to create a unique and functional media display design

Display a multitude of different file-types, including streamed video content

Configure any sized LCD monitor to support Multi Table Display or media displays

Schedule screen changes hourly, daily or on specific dates in the future, or initiated by events such as jackpots (display triggers)

Create playlists to auto-play content in a pre-defined order

Activate Blaze LED Surface Technology & illuminate tables with exciting animations (additional hardware required)

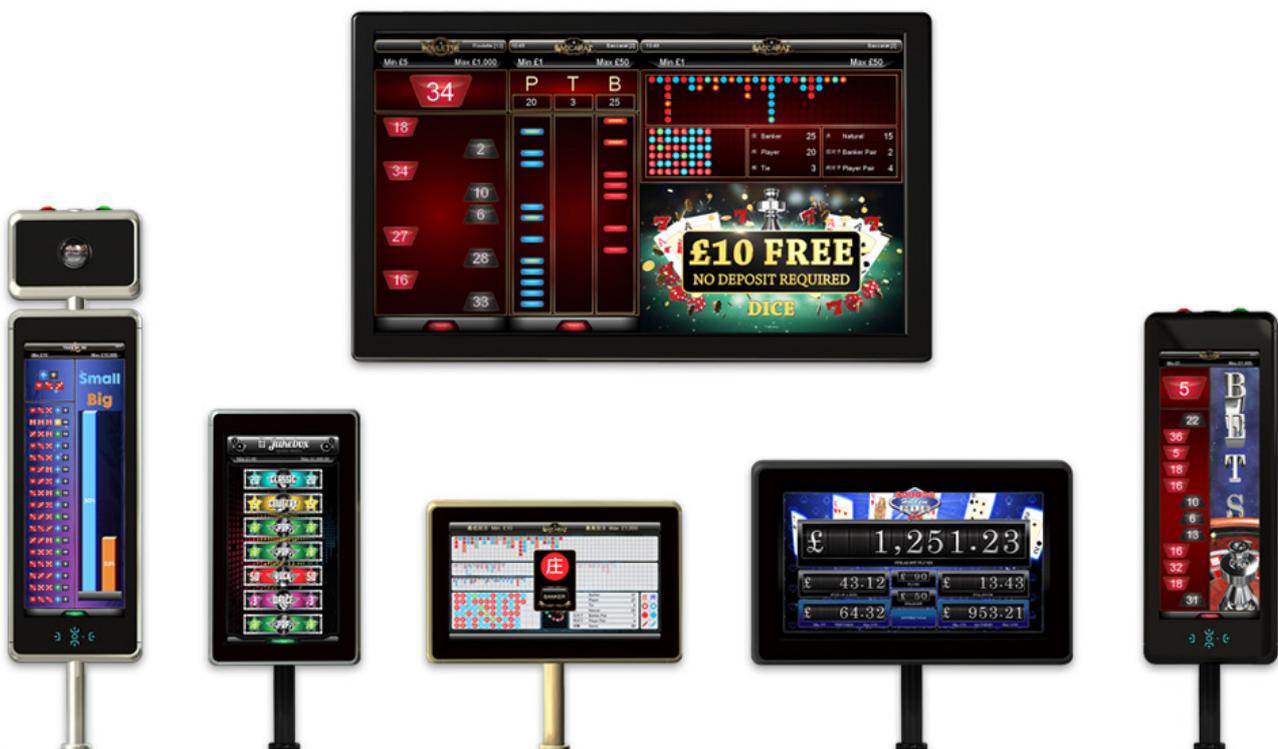

Available as just one module of the Gaming Floor Live System

Scheduled Content

With the Gaming Floor Live Media module, Media content can be broadcast to anywhere a display can be found, casino wide, from the e-FX™ Displays and Multi Table Displays to Qorex EGT's. GFL Media provides you with the power to alter and schedule media content, publish custom messages to specific tables or areas, instantly modify table min/max's, stream promotional video content, display table trends and results, run custom built promotions and much more.

Customisation Options

Compliment a casino's look and feel with fully customisable display options. The GFL Media module allows users to select from a library of widgets, layouts and frames in order to create unique designs. Operators are also able to display a multitude of different file-types and streamed video content. This enables casinos to display an endless array of in-casino promotions, or feature news clippings and major sporting events.

Centralised Real-Time Display Control

GFL Media offers seamless integration of casino-wide displays to share real-time promotions and game results with stunning animations, all controlled via a user friendly centralised dashboard.

User-Friendly & Secure Display Control

GFL Media's browser-based admin dashboard is easy to use and highly secure. With drag and drop display creation and screen previewing capabilities, it's simple to design exactly what you want. Operators can also grant the control of particular screens and features to defined user groups, ensuring that content access remains secure and protected.

Let's get technical
