

What sets Power 8's apart?

Power 8's is a progressive Baccarat side-bet that is powered by GFL Bonusing.

Features & Benefits

- New & exciting side-bet for Baccarat/Mini Baccarat
- Easy for players and dealers to learn
- Increase in House Advantage
- Exciting colour changing LED bet sensors
- Game speed is minimally impacted

Simple, Fast & Fun!

One of Baccarat's best, and most appealing, features is its simplicity. Power 8's compliments this by only requiring the player to place an additional bet; there are no other moves for the player to carry out. The rest of the game is left up to the dealer and the cards, making it easy for the player to focus on the thrill of the game.

Game Overview

Baccarat has long since been one of the most popular casino table games in the world. With the new Power 8's side-bet, casino operators can now capitalize on Baccarat's popularity by encouraging additional wagers, which ultimately results in increased revenue. Power 8's is sure to ignite excitement in both seasoned and new Baccarat players alike.

In Power 8's, players bet on the combination (suit) and frequency of 8's dealt, either as part of the initial 4 card deal or from the total of drawn cards representing a result in the main game. The three top progressive jackpots are shared equally between all those who placed a bet on the winning flashing pads.

Perfect for GFL Bonusing

GFL Bonusing is a powerful floor-wide event and mystery progressive system for live tables. When used with Casino Hold'em Plus or any other table game, GFL Bonusing allows casinos to create floor-wide jackpots across game types to generate truly meaningful prize pools.

GFL Bonusing presents casino operators with the option to offer both mystery and event-based progressives and jackpots. Event-based progressives and fixed value jackpots are awarded as a result of a game-specific winning outcome, such as a Royal Flush in Poker. Operators can control jackpot contributions and output triggers, among many other pre-defined options to enable either large prizes with low hit frequency, more frequent small prizes, or a mixture of both.

The system has the ability to add mystery jackpots that use a random number generator (RNG) to select participating player(s) as the winner(s). Operators can control the average value and frequency of their mystery jackpots. This option can be enabled or disabled depending on regional regulatory restrictions.

Pay Table

Descriptive	Jackpot	Base Value	Eligible
4 x 8's in initial deal	1	Top Jackpot	Shared Equally
4 x 8's including drawn cards	2	Middle Jackpot	Shared Equally
