

What sets the TCSJOHNHUXLEY A Plus Shuffler® apart?

The A Plus Shuffler® is the most versatile 1 to 8 deck shuffle machine on the market.

Features & Benefits

Increase game speed and profitability

Non-traceable random shuffle

Totally versatile shuffler from 1 up to 8 decks

Large LCD user display

Easy to use with pre-programmed game settings

Game configurable

Compact design

Designed for reliability and easy servicing

Lightweight Compact Design

The footprint of the A Plus Shuffler® has been designed to not effect the dealing or playing areas of a table layout. With low operating noise and compact design style, the A Plus Shuffler® sits comfortably on any table.

Totally Versatile

A Plus Shuffler® comes pre-programmed with many popular casino card game settings. Simply choose the game and be ready to shuffle and play in seconds. A Plus Shuffle® is capable of delivering a continuous supply of cards from one up to eight decks or can deliver composite hands of one or more cards in turn. A Plus Shuffler® is ideal for Blackjack but can easily increase game speed, hand rate, utilisation and ultimately revenue from almost any casino card game.

Keeps Players Fully Engaged

The cycle time with the A Plus Shuffler® is the fastest in it's class. With no delays to the flow of the game, your players are kept fully engaged with all of the action.

Fast and flexible

Compatible with plastic, paper and plastic coated cards, including embossed cards, the A Plus Shuffler® can handle between one to eight decks of any card currently on the market.

Easy to Operate

The A Plus Shuffler® requires limited training time as the machine prompts the user throughout the dealing process. The simple to use device ensures that introducing new staff to the unit only takes minutes.
