Custom colour wedges and corner drink rest options available

Wide range of decorative themes available such as ornate dragons and a pagoda roof

Incorporates Saturn™ Auto Roulette Wheel, Giant Dice Shaker or Gameball

Can be linked to live tables devices or RNG

Displays show winning results, hot and cold numbers and win historical results

Fully synchronised displays reflect game state information enhancing player experience

Flexible Options

Qorex Square Carousel can be configured to your casinos requirements with a range of highly flexible configurations and decorative options. Qorex Carousel allows for up to 8 player positions and units are available for both 23" or 27" size screen terminals providing a variety of flexible options. Units can be stand alone or built around automated devices which include the Saturn™ Auto Roulette wheel, the Giant Dice Shaker or the innovative Baccarat based-game of Gameball.

Striking Graphics

Qorex Square Carousel incorporates 65" large format displays which show off the eye-catching graphics along with optional overhead internal facing screens that feature the ability to show all bets being placed by players around the carousel by colour. Furthermore, all the displays are fully synchronised to the game showing the current game state, winning numbers and historical results, that can be seen across the casino floor. For added impact, the HiLite Orbit LED attract ring also provides the option of displaying messages from within the carousel, right in front of players. Whichever option you choose, Qorex Carousel is sure to provide a real focal point to any gaming floor that will attract and keep players at the terminals longer.

Swap Between Games Easily

Switching between games is simplified using the easy to navigate side bar, which allows players to filter game types, and pre-select favourite tables. This allows players to quickly place bets and repeat bets without having to change between tables.

Wide Range of Accessories

Qorex Carousel offers a wide range of accessories that allow for further customisation including coloured terminal wedges and corner drink rests which can be topped off with Asian style sweeping curved canopies. Further player features include wireless charging spots for mobile devices.
