

## What sets the TCSJOHNHUXLEY Qorex HiLite System apart?

Qorex HiLite is a modular system that can be used in a variety of different gaming configurations.

### System Overview

Designed to complement the attractive Qorex terminal, the Qorex HiLite System is a range of products featuring striking LED displays and podiums that connect to the centralised system for full synchronisation of the game. Modular in design, the Qorex HiLite System can be tailored to suit a casino's requirements providing a stunning centrepiece and attraction on the gaming floor whilst also enhancing the player experience with engaging graphics all synchronised in real-time to the game.

### Features and Benefits

LED displays show exciting animations transitioning between game states

Can be used for a wide variety of Qorex configurations and over-table live games

Fully synchronised system showing current game states, hot and cold numbers and historical results in real-time

High definition graphics provide a stunning centrepiece and attraction on the gaming floor

Modular design allows for different display types or configurations

Dimmable LEDs in overhead diffuser

Integrated dome camera enables players to view the game in real-time

Custom designed panels can be added to the HiLite Podium

### HiLite Column

The HiLite Column provides the 'anchor' for all the various system components and comprises of a steel stand that is either floor standing (for use with table games, or pit signage) or secured to the HiLite Podium. LED displays provide historical winning numbers, game states and number trends.

### HiLite Luna Sign

The circular overhead HiLite Luna sign incorporates high intensity LED's that provide vibrant and eye-catching animated game information as well as attract modes, allowing players to clearly see the Qorex area, game states and winning results, right across the gaming floor. Flexible in design, the HiLite Luna sign incorporates dimmable LED lighting and a camera.

### HiLite Podium

The HiLite Podium complements the Qorex EGT integrating products such as the Saturn Auto Wheel and the innovative Giant Dice Shaker. Designed to be built-in or free-standing the HiLite Podium illustrates just how flexible the HiLite system can be, offering the flexibility to tailor to a casino's requirements. Custom designed LED panels can be added to the HiLite Podium to incorporate a casino's branding and LED panels can be set to various colours.

### HiLite Orbit Sign

For added impact, the Orbit circular LED attract ring sits on top of the HiLite Podium encircling a Roulette Wheel or Giant Dice Shaker. This stunning high intensity display provides fully synchronised live game information, number trends and winning results, right in front of players.
