Game Overview

Richer Spin Roulette is an exciting new side bet that adds a twist to Roulette. Played alongside the traditional game, Richer Spin Roulette features a unique Roulette wheel with an inner cylinder that has gold and silver bonus bet icons. This counter-rotates to the outer number ring allowing the two to spin on independently rotating cylinders.

Bets are placed on a number racetrack adjacent to the traditional Roulette grid and winning bets are determined by the number the icons line up with once the wheel comes to a stop. With the one Gold icon paying out 300 for 1 and the nine Silver icons, 100 to 1, players love the chance of higher payouts to the traditional game.

Game Rules

To place a Richer Spin Roulette side bet, players must pick a single number from Zero to 36 (or when available, additionally 00 or 000) on the Richer Spin racetrack adjacent to the traditional roulette layout. There is no limit to the number of side bets that can be placed.

The dealer spins the inner Richer Spin cylinder in the opposite direction to the outer numbers cylinder and when the wheel stops each icon is aligned with a number. The players wins when the ball lands in a pocket that lines up to the icon and that number matches the bet on the Richer Spin racetrack.

In the event that the ball comes to rest in alignment with one of the Gold or Silver icons then the wagers placed on the corresponding side bet Racetrack number will be paid at the odds stated. The dealer pays out the Richer Spin side bets at the same time as reconciling all the main Roulette bets.
