# RICHER SPIN ROULETTE

Richer Spin Roulette is an exciting new side bet that adds a twist to Roulette. Played alongside the traditional game, Richer Spin Roulette features a unique **TCSJOHNHUXLEY** Roulette wheel with an inner cylinder that has gold and silver bonus bet icons. This counter-rotates to the outer number ring allowing the two to spin on independently rotating cylinders.

Bets are placed on a number racetrack adjacent to the traditional roulette grid and winning bets are determined by the number the icons line up with once the wheel comes to a stop. With the one Gold icon paying out 300 for 1 and the nine Silver icons, 100 to 1, players love the chance of higher payouts to the traditional game.

## Game Rules

- There is no limit to the number of side bets placed by an individual player.
- Each side bet can be placed on any number.
- The side bet does not affect the standard Roulette rules.

## How To Play Richer Spin Roulette

1. To place a Richer Spin Roulette side bet players must pick a single number from 0 to 36 (00 or 000 may also be selected when available).
2. The Richer Spin Roulette side bets are made on the second set of numbers arranged in a "racetrack" pattern on the layout – in two columns.
3. Once all bets are placed the dealer then spins the inner Richer Spin Roulette cylinder in the opposite direction to the to the outer numbers cylinder.
4. When the wheel stops each icon is aligned with a number. The player wins when the ball lands in a pocket that lines up to the icon and that number matches the bet on the Richer Spin Roulette racetrack.
5. In the event that the ball comes to rest in alignment with one of the Gold or Silver icons then the wagers placed on the corresponding side bet Racetrack number will be paid at the odds stated.
6. The dealer pays out the Richer Spin Roulette side bets at the same time as reconciling all the main Roulette bets.
