LUMIN8

Create Fun and Exciting Custom Games

Lumin8 from TCSJOHNHUXLEY is an eye-catching digital game wheel, with multi game functionality and a wide range of options for creating fun and unique games.

Choose from numerous combinations of pre-installed numbers and symbols, consisting of 16, 20, 32, 37, 38, 52, 54 and 64 winning positions or design your own using the Lumin8 design software. Bingo symbols of 75, 90 or more are also available.

Unique Designs

The Lumin8 Money Wheel allows you to design your own symbols and assign different parameters for each of them – for example the probability rate, speed and duration of spinning, winner cursor shape, appearance, demo mode, etc.

Game upload is quick and easy, taking just a few seconds – all you have to do is save the game to a USB key and insert it into the Lumin8 console.

Great for Fun Games and Promotions

The Lumin8 Game Wheel is perfect for fun games and promotions. For added excitement different push and play buttons can be ordered separately. The button can be integrated with the main game, used on a separate stand or counter-mounted.

The centre screen is also independently controlled to display logos and the winning result, for further customisation.
